**NM6/25 Motion Pursuant to Notice - Notice of Motion from Cr Burst - Australia Day Citizenship Ceremony and Community Service Awards be Conducted and Observed on 26th January and Review of Australia Day Flag Designs (F2020/06225)**

36/25

**RESOLUTION: (Burst/Rosenfeld) that Council:**

- a) fix the date of the Australia Day Citizenship Ceremony and Community Service Awards to the existing date of 26<sup>th</sup> January from 2026 onwards, indefinitely;
- b) review Randwick LGA Australia Day banner designs, which are hoisted and displayed on poles throughout the LGA for 26<sup>th</sup> January 2026 and onwards, ensuring they depict imagery that is commonly associated with the Australian Day celebrations, including the Australian National Flag and involve the use of iconic colours and animals that are synonymous and unique to our country; and
- c) investigate conducting a local art competition for school children across Randwick LGA to assist in the design of Australia Day banners, encouraging depictions of the Australian Flag and Australian Cultural References.

**NM7/25 Motion Pursuant to Notice - Notice of Motion from Cr Veitch - Environmental and Health Impacts from Industrial Contamination in Kamay/Botany Bay (F2021/01408)**

37/25

**RESOLUTION: (Veitch/Said) that Council:**

- a) notes the historic onsite contamination from operations including Botany Industrial Park (ICI/Orica), Caltex Kurnell and Sydney Airport/Airservices Australia has resulted in chemicals including chlorinated hydrocarbons, solvents, petroleum hydrocarbons, heavy metals including mercury, chromium, nickel, lead and arsenic as well as hexachlorobenzene (HCB) and PFAS (per- and polyfluoroalkyl substances, a group of over 4000 chemicals) leaching into the soil and ground water and then into the Botany Sands Aquifer which runs into Kamay/Botany Bay. There has also been surface water run-off into the bay from several of these sites;
- b) notes significant community concerns regarding PFAS are being investigated in the current NSW Parliament Select Committee *Inquiry into PFAS Contamination in Waterways and Drinking Water Supplies Throughout NSW* and the Senate *Select Committee on PFAS (per and polyfluoroalkyl substances)*, with sites across NSW including Dept. Defence lands, airports, drinking water catchments and neighbouring communities affected;

- c) acknowledges the devastating health and social impacts on individuals and communities revealed in these submissions and hearings;
- d) notes that PFAS investigations were conducted at Sydney Airport in 2005; 2012; 2017 and 2020 but the results of the investigations have never been publicly released. Another investigation is currently underway but Airservices are not due to report on it until 2025;
- e) notes that journalist Carrie Fellner in her Sydney Morning Herald report (24/12/18) stated that “A pool of poisonous water underneath Sydney Airport contains some of the highest levels of toxic firefighting chemicals seen on Australia’s eastern seaboard... The airport at Mascot is one of the highest profile sites in the country to be polluted with the per- and poly-fluoralkyl [PFAS] chemicals...”;
- f) notes that the TfNSW Kamay Ferry Wharves EIS contamination investigation was deemed “grossly inadequate” by a respected former EPA site auditor, Dr Bill Ryall, because in his opinion PFAS, TBT & other contaminants, specific to the site at La Perouse and Kurnell, were not appropriately assessed;
- g) notes that the 2009 National Assessment Guidelines for Dredging (NAGD), which are commonly used in marine contamination investigations for Environmental Impact assessments, do NOT include PFAS;
- h) notes that in the final Kamay Ferry Wharves contamination investigation of 2023, PFAS was found in sediment/water, but because PFAS is not included in the National Assessment Guidelines for Dredging (NAGD) and the NAGD was the specified document which determined the scope of the audit, the site auditor therefore dismissed the implications of the finding PFAS by stating it was not a contaminant of concern; and
- i) calls on the NSW and Federal Governments and other relevant authorities to:
  - 1. significantly increase the number of PFAS and other known pollutant testing sites in Kamay / Botany Bay, including near Frenchman’s, Yarra and Congwong Beaches as well as near the Kurnell De-Salination Plant;
  - 2. immediately release the findings of all PFAS and other chemical investigations from the vicinity of Sydney Airport and other sites in Kamay / Botany Bay;
  - 3. urgently update the 2009 National Assessment Guidelines for Dredging to specifically include PFAS in its many forms;
  - 4. instigate continuous PFAS and other chemical testing and reporting of water quality at the Kurnell De-Salination Plant;
  - 5. commence remediation and clean-up of all affected sites, water catchments and waterways;
  - 6. install appropriate filtration on all drinking water treatment plants;

**NM9/25 Motion Pursuant to Notice - Notice of Motion from Cr Willington - Switching to all Electric Domestic Appliances - A Partnership Proposal with the Federal Government (F2022/00332)**

39/25

**RESOLUTION: (Gordon/Luxford)** that Council:

- a) notes that the last 22 Australian studies comparing the energy running costs of all-electric versus gas-connected homes all demonstrate that all-electric homes save households anywhere between \$1,000-\$16,000 per year on their energy bills. No credible, recent study can show dual-fuel (gas-connected) homes being cheaper to run than all-electric ones;
- b) notes the decades of scientific medical research which demonstrates the alarming health impacts associated with indoor gas use, including asthma, leukemia and lymphoma;
- c) writes to the federal environment and climate change minister, Chris Bowen, expressing its support for, and interest in, the minister's proposal to accelerate the electrification of local households and communities via the Australian Renewable Energy Agency's (ARENA's) community electrification grants;
- d) writes to ARENA expressing Council's interest in the community electrification grants program seeking information and advice on developing a constructive partnership to deliver a pilot community electrification program within the City of Randwick; and
- e) writes to the Minister for Planning advocating strengthened basix requirements to limit the prevalence of gas connections in new buildings.

## Questions with Notice

### **QN1/25 Question with Notice - Question with Notice from Cr Magner - Randwick Junction Town Centre - Current Status and Revitalisation Initiatives (F2015/00431)**

---

#### **Question:**

Could Council Officers please provide:

1. A detailed update on the status of the Randwick Junction Town Centre Planning Proposal, including anticipated implementation timelines and key milestones?
2. Information regarding potential short-term initiatives that Council could implement to enhance economic activity in the precinct, specifically addressing:
  - Public domain improvements
  - Business activation programs
  - Local business support initiatives
  - Parking optimisation opportunities.
3. Recommendations for additional short to medium-term actions Council might consider implementing to revitalise the Randwick Town Centre's community vibrancy.

#### **Background:**

The Randwick Junction Town Centre requires both immediate activation initiatives and longer-term planning solutions to address current challenges.

While the Planning Proposal progresses through Gateway Determination, there is community interest in understanding Council's strategy for immediate revitalisation efforts, particularly regarding street front shop vacancy rates and evening activity.

Recent feedback from the Randwick Precinct Committee and local stakeholders highlights the need for a coordinated approach to both short-term activation and longer-term planning outcomes.

#### **Response from Director Planning & Director Community & Culture:**

1. **A detailed update on the status of the Randwick Junction Town Centre Planning Proposal, including anticipated implementation timelines and key milestones?**

The Department of Planning, Housing and Infrastructure has now issued a Gateway Determination for the Randwick Junction Planning Proposal (RJPP). The Determination, dated 16 February 2025, contains conditions relating to affordable housing requirements, flooding and land contamination that must be met prior to public exhibition of the Planning Proposal. The Proposal is required to be amended and resubmitted to the Minister under 3.34(6) of the Act. The Proposal was submitted to the Department in October 2023. The RJPP contains an explanation of the changes to primary planning controls (Zoning, height of buildings and FSR) in the Randwick LEP 2012. The proposed changes have been informed by a comprehensive urban planning analysis undertaken by Council officers, the input of expert planning consultant advice (heritage, feasibility, transport), urban design studies, community and stakeholder consultation. A range of public benefits or place-based outcomes have been identified as part of the planning review including the provision of affordable housing, pedestrian through-site links, new plazas, the widening of footpaths, the redevelopment of detracting buildings (identified by the Heritage Assessment) and the restoration of heritage and contributory buildings.

#### **Timeline**

March/April 2025 - Address conditions in the Gateway determination including additional feasibility assessment, review of height and FSR and affordable housing contributions

May 2025 – report to Council on the amended RJPP

June 2025 – submit the RJPP to Minister

July/August 2025 – Exhibition and community engagement

September 2025 – report to Council on outcome of exhibition

End September 2025 – submit final PP to Parliamentary Counsel for legal opinion

November 2025- RJPP made

**2. Information regarding potential short-term initiatives that Council could implement to enhance economic activity in the precinct, specifically addressing:**

**o Public domain improvements**

Urban Design Principles have been developed for the Centre and are contained in the Urban Design Report (May 2023) and Draft Development Control Plan (endorsed by Council in November 2023).

#### 4. Urban design vision and principles

##### 4.1. Urban design vision

The urban design vision for RJTC captures the people focussed experience of the public realm – well scaled streets, plazas and urban parks that comprise any well-designed urban environment in Australia or internationally.

We expect a high-quality urban environment, a respect for heritage, a town centre with ready access to public transport, an environment that is easy to walk and to cycle, and that performs well environmentally, with good tree canopy cover and a sustainable approach to the design of buildings and the components of the public domain. A place that is functional, modern and that inspires, that recognises our Aboriginal heritage, and that incorporates quality street furniture and inspired public art.

The urban design vision for RJTC is for:

*'A lively and pedestrian friendly town centre, with a series of interconnected public places and attractive streetscapes that celebrate Randwick Junction's unique cultural heritage, that strengthens its 'village character' and that looks to the future, embracing a viable and environmentally sustainable ethos in the design of the buildings and the public domain.'*

*Ref: Urban Design Report (May 2023)*

**o Business activation programs**

A Shop Local Buy Local campaign will also be delivered in this area in 2025 to bring people back to this area to support local business and to encourage the local businesses to provide special offers. For this area, a focus on night-time restaurant offers and aligned programming.

Council is also investigating a three-year state funded "open streets" grant including the Randwick Town Centre as a key location, to build vibrancy, support the local businesses and increase visitation

**o Local business support initiatives**

- Council's Economic Development have been working closely with the local Chamber to support seeking external funding and to support capacity building opportunities (workshops, networking events) for the town centre
- Randwick Town Centre has been looked at as a location for pop up shop activations, preceded by an audit of empty spaces
- Preceding the pop-up shops program, a combined approach for Council to meet with local landlords to ascertain viable opportunities to reactivate empty shops, and bring in commercial and creative occupants

**o Parking optimisation opportunities**

A local transport study was commissioned by Council in 2022 which investigated existing transport conditions and facilities including car parking. The study provides a range of recommendations for improvements and for new infrastructure. One of the recommendations is to prepare a coordinated public parking management plan for the Centre. Further work will be undertaken in collaboration with Council's Transport team. The study recognises the objective to develop a safe, efficient and sustainable network that incentivises public and active transport and reduces car dependency. Further information is available here.

### 3. Recommendations for additional short to medium-term actions Council might consider implementing to revitalise the Randwick Town Centre's community vibrancy.

- Council Officers will be analysing spend data and shop vacancy data for Belmore Road. The spend data will give an indication of how spending habits have tracked over a number of years.
- There is a location-based activations program that could be delivered in this commercial location, with creative programming at Waratah Plaza and also possibly for June Moore Place.
- There has been interest by a local business to run an op-shop/second hand market in Waratah Plaza to support the 3 local op shops and also activate the Plaza. Council is working with the representative on this.
- Council continues to meet with representatives from the Randwick Health & Innovation Precinct on a number of placemaking initiatives. In the medium to long term the additional creation of jobs at the RHIP will have a flow on effect to businesses on Belmore Road.
