

MINUTES OF TRAFFIC COMMITTEE MEETING HELD ON TUESDAY, 14 JUNE 2022 AT 9:30AM

Traffic Committee

- The following information is provided so that you may be aware of the structure and operation of the Randwick City Traffic Committee.
- The Randwick Traffic Committee is a Committee of Randwick City Council but not one set up under the Local Government Act.
- Council has been delegated certain powers from Transport for NSW (TfNSW), with regard to traffic matters upon its local roads. A condition of this delegation is that Council must take into account the Traffic Committee recommendations.
- Recommendations in this document may either activate the formal delegation from Transport for NSW to the Council, or not activate this delegation. Items which activate the delegation are indicated with the initials (AD) below the heading.
- There are four permanent members of the Traffic Committee, *each of whom has a single vote only*.
- The members are: **the NSW Police Service, Transport for NSW, the Local State Member of Parliament** (for the location of the issue to be voted upon) and **Randwick City Council**.
- Randwick City Council welcomes the public to register to speak at its Traffic Committee on issues of concern.
- If the Local Member disagrees with any of the Traffic Committee recommendations, they may appeal to Transport for NSW or the Minister for Roads.
- If the Police or Transport for NSW disagrees with any of the Traffic Committee recommendations, or Council's resolution on any Traffic Committee recommendation, they may lodge an appeal with the Sydney Regional Traffic Committee for determination. The appeal must be lodged in writing within 14 days of the notification to the members of Council's decision on the recommendation.
- Any action relative to any issue under appeal must cease until the matter is determined.
- The Sydney Regional Traffic Committee is chaired by an independent chairperson and submissions and representations are welcomed from all interested parties.

Acknowledgement of Country

Councillor Michael Olive volunteered to acknowledge the lands upon which this meeting is being held:

"I would like to acknowledge that we are meeting on the land of the Bidjigal and the Gadigal peoples; being the traditional owners who, for thousands of years, occupied and cared for vast areas along the Sydney Coast. The journey of Aboriginal and Torres Strait Islander people and their knowledge of this land is incredibly rich – its importance to the future of our country should never be underestimated.

On behalf of the participants of this meeting I acknowledge and pay my respects to the Elders past, present and emerging, and also to those Aboriginal people participating today."

Participants:

Mr Tony Lehmann	Randwick City Council (Chairperson)
Mr Anwar Subel	Transport for NSW (TfNSW)
Constable Hugo Pezzotti	Eastern Beaches LAC
Mr James Miranda	Representative for the Member for Coogee
Cr Michael Olive	Councillor (East Ward) Traffic Committee Delegate
Cr Bill Burst	Councillor (South Ward) Alternate Traffic Committee Delegate
Cr Kathy Neilson	Councillor (North Ward)
Mr Bushara Gidiess	Transdev John Holland
Mr Van Le	Transport for NSW (TfNSW)
Ms Kate Lewis	Transport for NSW (TfNSW)
Mr Lee Roberts	BIKEast
Ms Helen Fragakis	South Eastern Sydney LHD (POWH)
Mr Shannon Hewitt	UNSW
Ms Joann Sayers	Rainbow Street Public School
Mr Craig Muldoon	Rainbow Street P&C
Mr Anthony Ryan	Resident
Mr Paul Chilcott	Resident
Mr Duncan Scott, Mr Sri Sritharan, Ms Heidi Leadley, Ms Dilruba Akhter, Mr Reza Ahmed, Ms Jay Lee-Pieterse, Mr Ali Yassine, Mr Jesse Grazotis and Ms Jai Sue – Randwick City Council	

Apologies

Apologies were received from:

- Representative for the Member for Heffron
- Representative for the Member for Maroubra

Matters Arising from the Minutes OR from Council Resolutions

TC79/22 Traffic Committee Report - Prince of Wales Hospitals, Covid-19 Parking Arrangements - Various Streets - Standing Item (C) (F2020/00231)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.79	D04295265	Signage, Parking	Other	TL	Yes

At the Traffic Committee meeting held on 13 July 2021, it was recommended that there be a standing item reviewing the special parking arrangements instituted near to the Prince of Wales hospitals, due to the Covid-19 pandemic.

At the last meeting of this Committee a resident attendee suggested that NSW was 'business as usual' again and that the Special Parking arrangements should be reviewed. In particular, this resident expressed concerns about the parking arrangements near to Randwick shops and The Spot locality.

Following this request an examination of the current Covid-19 cases was reviewed. The numbers of Covid-19 hospitalisations and ICU patients are showing in the following graphs.

Covid-19 cases in hospital

COVID-19 cases in ICU

Given these increasing case numbers and given the significant additional case load created by the current influenza outbreaks, it is suggested that the current arrangements remain in place and be reviewed again, after winter.

Helen Fragakis (POWH) sought clarification as to the validity of the current parking permits distributed in 2020. Duncan Scott (RCC) confirmed Council's Rangers and Parking Patrol Officers were aware that the permits issued with the August 2020 expiry date were still being considered as valid. Mr Lehmann stated that, given the short time period until August, 2022, it was considered that no new permits need be created and/or issued.

Recommendation

That:

1. the existing special parking arrangements near to the Prince of Wales Hospitals, for all staff of the Emergency Departments and the Intensive Care units, be retained until after the end of winter; and
2. this matter be reviewed again at the September Traffic Committee meeting.

TC80/22 Traffic Committee Report - Bream Street, Coogee - Motorcycle Parking (C) (DA/475/2021)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.80	DA/475/2021	Signage Parking	Motor Cycle Parking & 2P Resident Parking	RM	Yes

The resident of 75 Bream Street, Coogee has applied for the construction of a hardstand carpark space at the front of their dwelling. Due to the construction of their off-street parking space, the existing, well utilised, 8.1m P Motor Bikes Only (NSW Road Rule 202) zone needs to be reduced to 2.6m, closer to the property boundary of 73 Bream Street.

As a result of reducing the existing P Motor Bikes Only zone, directly in front of 75 Bream Street, additional P Motor Bikes Only zone should be implemented nearby, to support the high demand for motorcycle parking.

It is considered that a 5.5m P Motor Bikes Only zone should be installed on the southern side of Bream Street, adjacent to 72 Bream Street. This will require that the existing 5.5m "2P, 8am-8pm, Permit Holders Excepted, Area CO1" zone be relocated to the eastern side of Hill Street, adjacent to 72 Bream Street.

Both residents and motorcycle riders will be satisfied with this change as this will have minimal impact since there will be a loss of only a single on-street car space (in order to provide for off-street parking).

Resourcing Strategy implications

Funding is provided for within the current budget; under the 'Signs and Lines' allocation.

Recommendation

That:

1. Existing 8.1m P Motor Bikes Only (NSWRR 202) zone directly in front of 75 Bream Street, Coogee, is reduced to 2.6m;
2. A 5.5m P Motor Bikes Only (NSWRR 202) zone is installed on the southern side of Bream Street, adjacent to 72 Bream Street, Coogee; and
3. The 5.5m length of "2P, 8am-8pm, Permit Holders Excepted, Area CO1" zone be relocated from the southern side of Bream Street to the eastern side of Hill Street, adjacent to 72 Bream Street, Coogee (see diagram).

TC81/22 Traffic Committee Report - Bundock Street, Randwick - Road Safety (C) (F2004/07225)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.81	D04571171	Road Safety	Intersection	TL	Yes

The Council has been informed of a collision which occurred at the intersection of Bundock Street and Canberra Avenue, on the evening of Sunday 15 May, 2022. Over the following days a number of residents contacted the Council expressing concerns about road safety at this intersection.

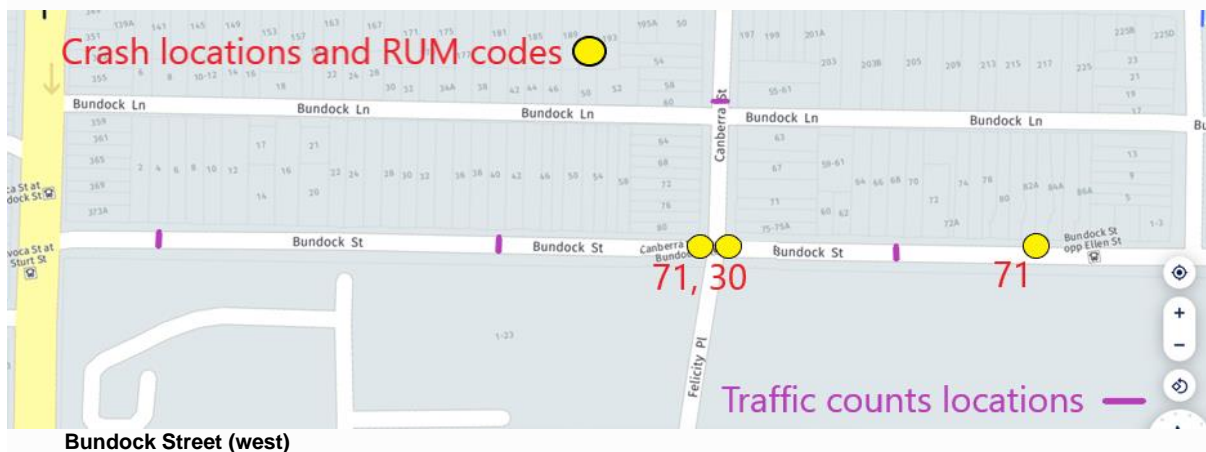

An analysis of crash statistics and traffic flow in this area has been undertaken. Regarding crash statistics, the Council receives on a quarterly basis, comprehensive vehicle crash information from Transport for NSW (TfNSW). This TfNSW data is the most accurate method to assess road safety at particular locations – the data contains more than 80 characteristics relating to each collision and 27 characteristics relating to the vehicle and persons involved. The records are based on actual Police reports, or self-reports, relating to crashes where persons are injured or where vehicles have had to be towed away. Generally, this data is received 6-12 months after the events.

The most recent formal data received extends through to 30 September 2021. When examining collisions occurring in a particular location, street or area, it is accepted practice to examine the most

recent five years of available crash data. An analysis of the most recently available five years of crash data reveals that there were 1,597 reported crashes within the Randwick local government area (LGA), over five years.

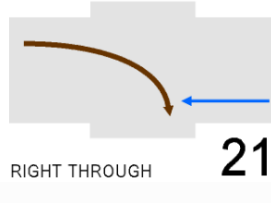

Given the recent concerns raised, a location specific examination of the most recently available crash data was undertaken for the full 1.1-kilometre length of Bundock Street, from Avoca Street to Malabar Road. This analysis revealed that there have been 13 recorded crashes in Bundock Street, over the five-year (60 month) period from October 2016 to September 2021. This is an average of one reported crash every 4.6 months. It should be noted that there were no incidents reported involving people who were walking or riding bicycles.

The following diagrams show the locations and Road User Movement codes of Bundock Street crashes. It also shows the locations of recent traffic count locations:

Of these thirteen serious crashes:

Four were 'cross-intersection' crashes (Road User Movement 10)	<p>CROSS TRAFFIC 10</p>
Two were 'head-on' crashes (RUM 20)	<p>HEAD ON (not overtaking) 20</p>

Two were 'Left, off carriageway, into object / parked vehicle' crashes (RUM 71)	 <p>LEFT OFF CARRIAGEWAY INTO OBJECT / PARKED VEHICLE</p> <p>71</p>
One was a 'Right through' crash (RUM 21)	 <p>RIGHT THROUGH</p> <p>21</p>
One was a 'Rear end' crash (RUM 30)	 <p>REAR END</p> <p>30</p>
One was a 'Right rear' crash (RUM 32)	 <p>RIGHT REAR</p> <p>32</p>
One was a 'Vehicle door' crash (RUM 63), and	 <p>VEHICLE DOOR</p> <p>63</p>
One was an 'Off carriageway right, on right bend, into object / parked car' (RUM 83)	 <p>OFF CARRIAGEWAY RIGHT ON RIGHT BEND INTO OBJECT/PARKED VEH</p> <p>83</p>

Following is a detailed summary of each of the Bundock Street crashes:

Traffic Characteristics

Volume

The Council undertook traffic counts along Bundock Street in March 2022. A summary of the results of these counts is shown below:

Bundock Street - 'Annual Average Daily Traffic' volumes and 85th percentile traffic speeds

A more detailed examination of the traffic counts reveals that there are, on a daily basis, some 2,477 Bundock Street vehicles approaching the Canberra Street intersection from the east, and, that there are some 4,397 Bundock Street vehicles approaching the Canberra Street intersection from the west, and, that there are some 2,782 Canberra Street vehicles approaching the Bundock Street intersection from the north. Given these daily traffic volumes it can be seen that more than 3,526,000 vehicles are passing through the Bundock Street / Canberra Street intersection per year. This data further reveals that, over five years, there have been in excess of 12,000,000 vehicles pass through the Bundock Street / Canberra Street intersection.

Given the volume of traffic and the site conditions, the frequency of reported crashes occurring at this intersection is not considered to be excessive. In fact, the crash history indicates that this intersection is performing relatively well, from a road safety perspective.

Speed

Generally, the speeds along Bundock Street are typical of such a long, straight street in an urban setting. However, with the recently collected traffic count data, the Council will inform Eastern Beaches Local Area Police Command of the days and times when speeds may be considered most problematic. The Council will seek the cooperation of the local Highway Patrol in undertaking speed enforcement along this street. With the Council data being supplied to the Highway Patrol, they will be able to target specific times for the most effective enforcement.

Prioritisation of crash reduction treatments

As detailed earlier in this report, an analysis of the most recently available five years of crash data reveals that there were 1,597 reported crashes within the Randwick local government area. Of these 1,597 crashes, 676 crashes occurred at 248 intersections involving local and/or regional roads. It should be noted that the Council manages roads which are classified as local or regional roads. The Council does not manage roads which are classified as State Roads.

Of the 676 reported crashes, occurring at local road and / or regional road intersections in the last five years, there were the following tally of incidents*:

- One intersection had 12 reported injury crashes
- One intersection had 11 reported injury crashes
- One intersection had 10 reported injury crashes
- One intersection had 9 reported injury crashes
- One intersection had 8 reported injury crashes
- Two intersections had 7 reported injury crashes
- Four intersections had 6 reported injury crashes
- Six intersections had 5 reported injury crashes
- Twelve intersections had 4 reported injury crashes
- Nineteen intersections had 3 reported injury crashes
- **Fifty-three intersections had 2 reported injury crashes** (inc. Bundock / Canberra)
- One hundred and eighty-eight intersections had 1 reported injury crash, and
- Sixty-four other intersections had one, or more, reported 'towaway' only crashes

*(many of the reported injury crash sites also had additional 'towaway only' crashes)

When allocating Council's limited resources to address road safety matters, the highest priorities are given to those sites where the most crashes are occurring. Over many years the Council has been addressing local and regional road crash locations based on the worst performing intersections getting the higher priorities, with regard to the implementation of crash reduction treatments. Generally, this has been through the State and Federal Government black spot programs. Over the past decade more than twenty poorly performing intersections have been treated with crash reduction facilities. And there has been a commensurate reduction in crashes at numerous locations throughout the Randwick local government area. Examples of the previously treated crash sites are shown in the table below:

Year	Project Name	Project
2012 / 2013	Darley Road at Clovelly Road	Protected Right turn bay in Clovelly Rd at Darley Rd
2012 / 2013	Dolphin Street at Mount Street	Roundabout at Dolphin Street and Mount Street
2012 / 2013	Boyce Road at Cooper Street	Roundabout at Boyce Road and Cooper Street
2012 / 2013	Walsh Avenue at Wild Street	Roundabout at Walsh Avenue and Wild Street
2013 / 2014	Belmore Road at Arthur Street	Install Raised threshold at the pedestrian crossing on Belmore Road near Arthur Street
2013 / 2014	Cowper Street at Cook Street	Install pedestrian refuge with kerb blisters without pedestrian crossings at Cowper St near Cook St
2013 / 2014	Clovelly Road at Flood Street	Single lane roundabout at Clovelly Rd at Flood St
2014 / 2015	Anzac Parade and Bilga Crescent	Upgrade from Give Way to STOP and move stop line forward using kerb extensions
2016 / 2017	Carrington Rd at Bream Street	Install raised crossing island in Carrington Road at Bream Street
2016 / 2017	Cowper Street at Church Street	Install one lane roundabout with associated sign in Cowper Street at Church Street
2017 / 2018	Anzac Parade at Pozieres Ave	Install raised islands with additional STOP signs
2018 / 2019	Snape Street	Installation of Raised Threshold in Snape Street
2018 / 2019	Hannan Street at Maroubra Road	Installation of Kerb Build Out to bring hold line forward
2018 / 2019	Carrington Road at Glebe Street	Installation of high friction surface on curved road
2018 / 2019	Anzac Parade at Forrest Street	Reconstruction the intersection of Anzac Parade and Forrest Street to include central island with additional STOP sign
2018 / 2019	Clovelly Road at Mount Street	Construction of Raised threshold wombat crossing at existing marked foot crossing on Clovelly Road

2019 / 2020	Intersection of Arden Street and Dolphin Street	Installation of Pedestrian Refuge in Dolphin Street east of Arden Street
2019 / 2020	Intersection of Arden Street and Clovelly Road	Improve deflection angle of existing roundabout, install slow point
2019 / 2020	The Spot High Pedestrian Activity Area	Reduce speed limit by 10km/h, install kerb blisters
2020 / 2021	Chapel Street at Frenchmans Road	Move intersection forward using kerb extensions and reconstruction of substandard pedestrian refuge
2020 / 2021	Todman Avenue at Balfour Road	Installation of central median on Todman Avenue at Balfour Road intersection
2020 / 2021	Intersection of Frances Street at The Avenue	Installation of Raised Safety platform at the intersection of Frances Street at The Avenue
2020 / 2021	Duncan Street at McKeon Street intersection	Installation of pedestrian refuge and kerb extensions to form slow point
2021 / 2022	Arden Street / Oberon Street	Enlarge roundabout central island

Guidance given to the Council is that funding for road safety projects should be targeted toward those sites with the poorest safety performance.

Over the last 5 years there have been 53 intersections, within the Randwick LGA, which have had a tally of two injury crashes – one of these locations is the Bundock Street / Canberra Street intersection. And, within the LGA, there were an additional 48 intersections which had more than two reported crashes, over the last 5 years. Accordingly, the advice to the Council, at this time, would be that the available funding be focused on those sites where most injury crashes are occurring.

Notwithstanding the above advice, and given the concerns in the community, it is considered that some low scale interventions be considered for the Bundock Street / Canberra Street intersection. A report on such interventions will be prepared for the next meeting of this Committee.

NOTE: A 17 Page submission was received from a local resident as this Agenda item was being finalised. (Please refer to the Business Paper for the Attachment)

Resourcing Strategy implications

There are no financial implications arising from this report.

1.  Submission - Item TC81/22- Bundock St - Canberra St - by Mr Anthony Ryan. Please refer to the Business Paper.

Mr Ryan (resident) asked Marjorie O'Neill MP's representative, James Miranda, what Dr O'Neill's position was regarding this matter. Mr Miranda advised that at this stage Dr O'Neill is supporting the recommendations of Council.

Mr Lehmann, in response to a question put by Mr Ryan, stated that a roundabout would likely not be recommended at the next Traffic Committee as it would not be a moderate cost intervention. He also cautioned that the introduction of a roundabout would likely result in increased traffic flows in the area.

Mr Ryan continued talking to the Committee and asked that pedestrian issues also be considered in any review.

Mr Roberts (BIKEast) reminded the Committee of the Walking and Cycling Improvements: South Coogee to Kingsford project, approved for implementation along Sturt Street and Bundock Street. Mr Lehmann acknowledged this and stated that any traffic changes proposed for the street would incorporate this approved project.

Councillor Olive stated that Bundock Street is a long, straight, road and that looking at it "intersection by intersection" may be the wrong way of addressing this problem. He suggested that, given the numerous crash sites along the street, any treatments should be considered along the full length of Bundock Street; particularly given the speed profile along the street. Mr Lehmann acknowledged this approach.

Mr Gidiess (Transdev/John Holland – bus operations) asked that any proposed devices be designed so as to accommodate the 'swept-path' requirements of 14.5m long buses and that any traversable devices be no higher than 75mm, to accommodate the required ground clearances of buses.

Recommendation

That:

1. The Council continue to prioritise allocation of road safety project funds based on the reported crash data, as provided by Transport for NSW; and
2. A report be brought back, to the July meeting of this Committee, detailing proposed moderate cost interventions at the Bundock Street / Canberra Avenue intersections, to address the local community's road safety concerns.

TC82/22 Traffic Committee Report - Searle Avenue, Randwick (C) (F2021/00658)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.82	D04537282	Parking	Works Zone and 2P Resident Parking	DA	Yes

An application has been received for the installation of a 10m long Works Zone at the frontage of 11 Searle Avenue, Randwick. Currently there is 2P resident parking zone at this location.

Two resident parking spaces will be lost due to the installation of the 10m Works Zone.

Therefore, the 2P resident parking zone for Area RA7, will be extended by 11m southerly to compensate the loss of two resident parking spaces.

Resourcing Strategy implications

Funding is provided for within the current budget; under the 'Signs and Lines' allocation.

Recommendation

That:

1. The installation of 10m works zone at the frontage of 11 Searle Avenue, Randwick, be approved; and
2. The resident parking zone be extended by 11m southerly up to the northern end of the driveway of 19 Searle Avenue, Randwick.

TC83/22 Traffic Committee Report - Rainbow Street / Ellen Street, Randwick (C) (F2021/00209)

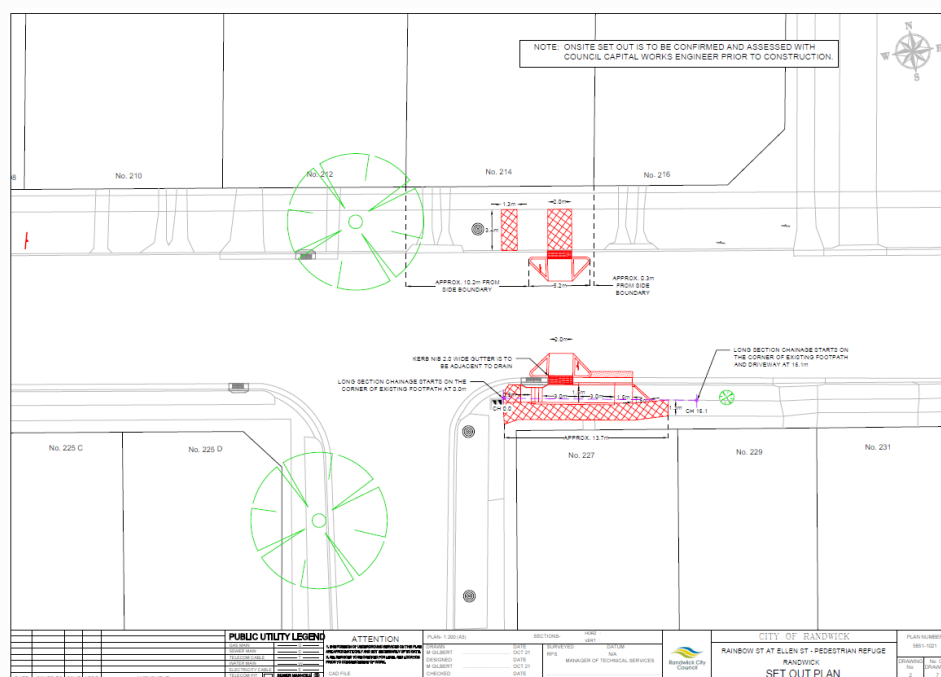

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.83	D04581631	Road Safety	Road Safety	JL	Yes

Community members have raised concerns regarding pedestrian safety when crossing Rainbow Street, near Ellen Street, Randwick.

At the Traffic Committee meeting held on 9th November 2021, three separate proposals were proposed to the committee for the installation of a pedestrian safety facility at this intersection. The Committee decided that a community survey be undertaken to better understand all viewpoints regarding the three options for a Rainbow Street pedestrian facility. As a result, the concepts have undergone further community consultation, which was undertaken from 6th April 2022 to 10th May 2022 through a survey via the 'Your Say' page.

The report detailing the outcomes of the community survey was tabled and discussed at the Traffic Committee meeting held on 10th May 2022. The Committee was informed that, based on the results of the Community Survey, Option 3 was preferred. It was recommended that Option 3 be implemented and the representatives of the local Member, Transport for NSW and the Police, each supported the recommendation.

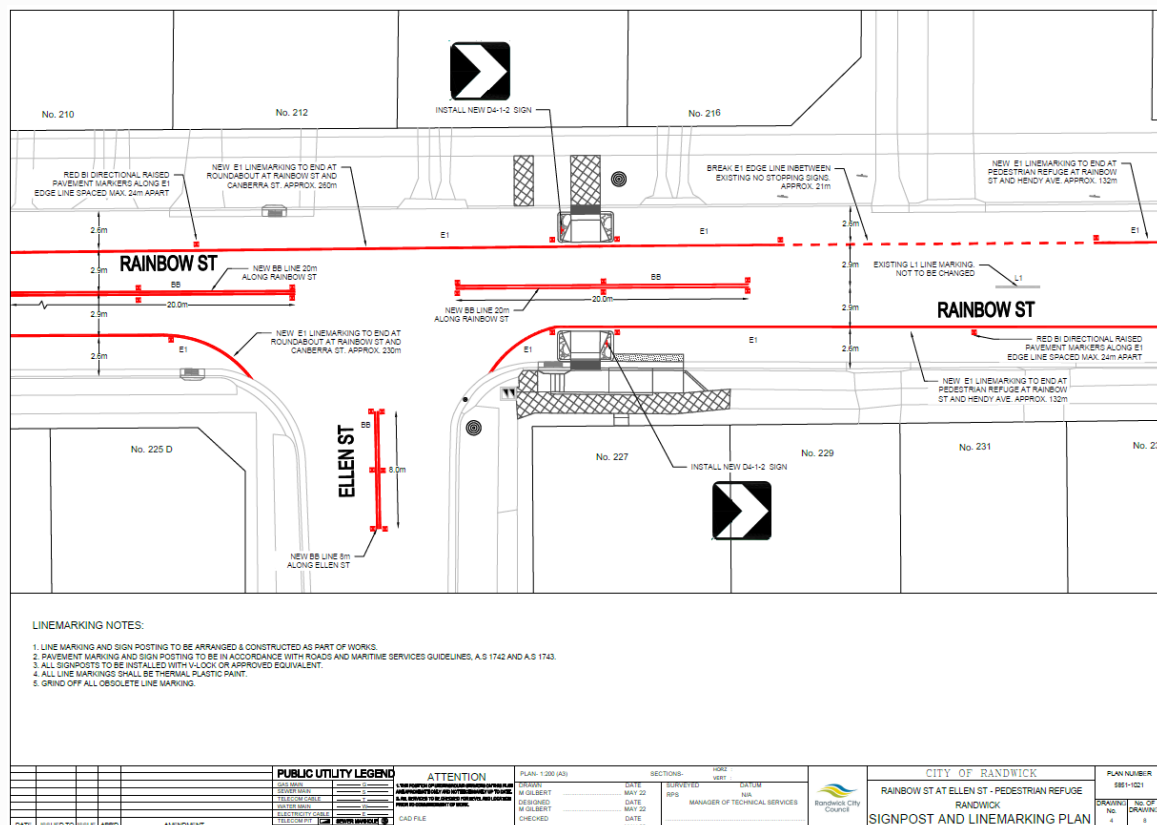

Preferred Option – Kerb nibs orientated more westerly

Since the Traffic Committee meeting was held on 10th May 2022, line marking and signage design has been undertaken to supplement the pedestrian refuge and further improve traffic safety at the Rainbow Street and Ellen Street intersection. It is recommended that the following line markings and signage be installed:

- double centrelines at the Rainbow Street and Ellen Street intersection:
 - 20 metres on the east and west legs of the intersection along Rainbow Street
 - eight metres on the south leg on along Ellen Street
- edge lines on the north and south side of along Rainbow Street
- 21 metres of break edge line between existing no stopping signs
- Bi-directional raised pavement markers
- D4-1-2 signs at the north and south kerb nibs.

The proposed line marking assist in slowing the speed of the passing motorists as well as guiding them around the proposed kerb nibs.

Resourcing Strategy implications

Funding for this project has been made available through Transport for NSW, from the Federal Government.

Mr Lehmann acknowledged BIKEast's submission requesting that cycle logos be installed through the road narrowing. Additionally, the Committee agreed to the suggestion by Mr Subel (TfNSW) that the double centreline in Ellen Street should be extended further northerly by 2m.

Recommendation

That the proposed line markings and signage accompanying the proposed pedestrian refuge on Rainbow Street and Ellen Street intersection (as detailed in the plan shown – D04586793) be endorsed for construction, with the minor modifications detailed above, being included.

TC84/22 Traffic Committee Report - Rainbow Street / Fennelly Street, Randwick (C)
(F2004/08338)

<i>Index code</i>	<i>Trim Ref:</i>	<i>Category</i>	<i>Sub Category</i>	<i>By</i>	<i>AD</i>
2022.06.84	D04595504	Pedestrian	Pedestrian Safety	TL	Yes

Notwithstanding the fact that Rainbow Street is a State Road, under the care and control of Transport for NSW, it is considered that the following matter should be discussed at Traffic Committee prior to a formal request being placed before the Authority. It is noted that the TfNSW representative may be unable to endorse, on behalf of the TfNSW, any recommendation arising out of this item.

As reported at the last meeting of this Committee, there are a number of traffic and parking matters of concern as raised by the Parents and Citizens Association from Rainbow Street Public. The Principal has asked for an update on each of the following matters:

- Rainbow Street Kiss and Drop extension
- Double lines on Rainbow Street outside the school
- No stopping signs on the western corner of Rainbow Street where it meets Paton Street
- Issues relating to safety on Young and Fennelly Streets at the rear of the school

An update on each of these matters will be provided at the meeting.

Resourcing Strategy implications

There are no financial implications arising from this report.

Mr Lehmann provided verbal feedback regarding each of the matters listed. Following is a summary of this feedback:

- *Rainbow Street Kiss and Drop extension*

TfNSW, the legal 'manager' of Rainbow Street, which is a classified State Road, reviewed sections of unrestricted parking before and after the pedestrian traffic signals near to the School. To provide additional pick up and set down parking outside the schools TfNSW suggested that the following parking changes be implemented:

On approach to the traffic signals:

- *10m of No Stopping remain from the stop line of the traffic signals;*
- *24m of Bus Zone be created to allow buses to draw into the Bus Stop (buses can use the 10m of No Stopping to draw out of the Bus Stop); and*

- 66m of 'No Parking 8-9.30am 2.30-4pm School Days' be installed up to the existing parking sign outside Paine Reserve for pick up and set down parking.

On the departure side of the traffic signals:

- 3m of No Stopping be installed from the pedestrian crosswalk line (PCW); and
- 86.5m of 'No Parking 8-9.30am 2.30-4pm School Days ' be installed for pick up and set down parking.

This change will provide approximately 7-8 additional pick up and set down parking spaces.

- Double lines on Rainbow Street outside the school

TfNSW advise that, as they require evidence of unsafe three point turns to support the extension of the double dividing line (BB), they will continue to monitor this area and consider changes if necessary.

- No stopping signs on the western corner of Rainbow Street where it meets Paton Street

TfNSW and RCC confirmed that these signs will be installed within the month.

- Issues relating to safety on Young and Fennelly Streets at the rear of the school

Prior to the construction behind the school taking place, there were 40km/h school zone signs, including road markings and dragons teeth in Young Street.

Reinstatement of these elements and extension of these into Fennelly Street will be arranged between RCC, TfNSW and the developer.

Additionally, Council's Community Road Safety Officer will be working with the school, exploring opportunities to improve road safety behaviours, given the current spatial limitations.

Recommendation

That the information provided at the meeting is noted.

TC85/22 Traffic Committee Report - Barker Street / Willis Street, Kingsford (H)
(F2008/00622)

<i>Index code</i>	<i>Trim Ref:</i>	<i>Category</i>	<i>Sub Category</i>	<i>By</i>	<i>AD</i>
2022.06.85	D04583882	Road Safety	Intersection	JG	Yes

Concerns have been raised about the road safety conditions at the intersection of Barker Street and Willis Street, Kingsford. It has been suggested that improvements are required to address these concerns.

To address these concerns, it is considered that additional signage and line-marking be installed. Installing double BB centre lines will increase awareness of the upcoming intersection and provide clearer entry/exit points of Willis St. Having Stop signs on both side of Willis Street, approaching Barker Street, will further increase awareness of the upcoming intersection and encourage drivers to take greater caution at the intersection. Re-painting the stop lines will re-affirm the intersection boundaries and discourage drivers from 'creeping' onto Barker Street.

Resourcing Strategy implications

Funding is provided for within the current budget; under the 'Signs and Lines' allocation.

Recommendation

That:

1. Double BB centre lines be installed 8m into Willis Street, Kingsford, on either side of the intersection;
2. Dual Stop signs be installed either side of Willis Street, Kingsford, on both sides of the intersection (indicated by the red squares); and
3. Maintenance be undertaken upon the existing Stop control lines at this intersection.

TC86/22 Traffic Committee Report - Barker Street, at Kennedy Street, Kingsford (H) (F2006/00101)

<i>Index code</i>	<i>Trim Ref:</i>	<i>Category</i>	<i>Sub Category</i>	<i>By</i>	<i>AD</i>
2022.06.86	D04543702	Road Safety	Speed and volume	DA	Yes

Following receipt of resident concerns, about the speed of vehicles travelling along Barker Street near the roundabout at Kennedy Street, traffic surveys were commissioned on 17 May, 2022, for a seven-day period.

The results of the traffic counts are shown in the following tables:

Barker Street At the vicinity of 106 Barker Street			Direction of Travel		
			Both Directions	Eastbound	Westbound
Traffic Volume: (Vehicles/Day)		Weekdays Average	10776	5287	5489
		7 Day Average	9886	4876	5010
Weekday peak hour traffic volume start	AM	08:00	990	402	628
	PM	16:00	777	473	348
Speeds : (km/h)		85 th Percentile	47.4	46.1	48.4
		Average	40.6	39.6	41.5

This traffic surveys indicates that the speeds occurring along Barker Street are typical for such a location. However, given the 85th percentile speeds on both directions are relatively not high, therefore, it is considered that no action deems necessary at this time.

Resourcing Strategy implications

There are no financial implications arising from this report.

Recommendation

That:

1. The results of the traffic surveys for Barker Street, Kingsford, undertaken in May 2022, be noted and
2. The person raising concerns about this matter be informed of the results.

TC87/22 Traffic Committee Report - Southern Cross Close, Kingsford (H) (F2009/00454)

<i>Index code</i>	<i>Trim Ref:</i>	<i>Category</i>	<i>Sub Category</i>	<i>By</i>	<i>AD</i>
2022.06.87	D04565620	Event	Road Closure - Temporary	RM	Yes

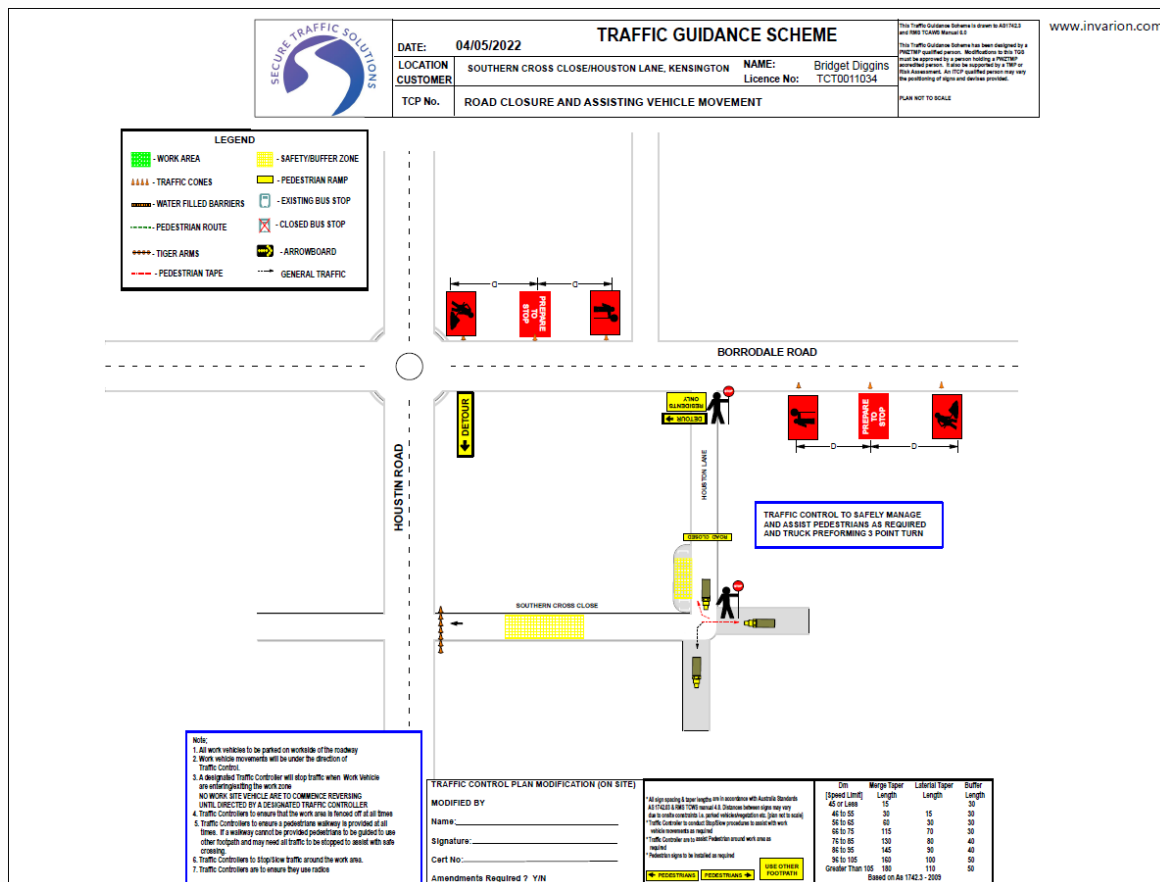

The Indonesian Presbyterian Church has applied to Randwick City Council to temporarily close to vehicular traffic part of Southern Cross Close, Kingsford, between Houston Lane and Houston Road on Saturday, 6th of August 2022, from 8am to 6pm.

Southern Cross Close is a one-way lane, in a westerly direction from Houston Lane and Houston Road. Houston Lane is a two-way road, intersecting with Borrodale Road to the north. The closure has been requested in order to accommodate the church's proposed open day street fair which will run from 10am to 4pm on Saturday, 6th of April.

The church has consulted with the local residents and businesses that use Houston Lane and Southern Cross Drive. Only two properties access onto Southern Cross Close, one of which is understood to be vacant. Local businesses have been asked to exit Houston Lane onto Borrodale Road during the proposed closure.

The church has prepared a traffic management plan for the event. The traffic control plan (TCP) from the Traffic Management Plan (TMP) has been reproduced, below.

All traffic control staff and equipment will be provided by The Indonesian Presbyterian Church. All traffic control will as per the TCP and all traffic controllers will be suitably qualified to RMS standards.

Resourcing Strategy implications

There are no financial implications arising from this report.

Recommendation

That:

1. Southern Cross Close, Kingsford, between Houston Lane and Houston Road on Saturday, 6th of August 2022 is closed to vehicular traffic from 8am to 6pm;
2. Traffic Control as per the Traffic Control Plan is implemented by suitably qualified traffic controllers with the cost to be borne by The Indonesian Presbyterian Church; and
3. Any directions made by the police or council rangers during the event are implemented by the organisers without delay.

TC88/22 Traffic Committee Report - Fitzgerald Avenue, Maroubra (M) (F2005/00901)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.88	D04529235	Line Marking	Lane Lines	AY	Yes

Concerns have been raised by a resident of Fitzgerald Avenue, Maroubra, regarding illegal parking adjacent to the driveway of 301 Fitzgerald Avenue, Maroubra. Vehicles parking in the area are preventing the resident from entering and exiting their driveway. They are seeking a clearer measure to reinforce NSW Road Rule 198 – “Obstructing access to and from a footpath, driveway etc”, in front of the property.

In order to achieve this, Council is proposing to install C3 Yellow Line Marking in the form of a rectangle perimeter in front of the driveway, in association with a yellow “X” in the middle, making it clear for motorists not to park in the area.

A concept design of this proposal is shown in the diagram below.

Resourcing Strategy implications

Funding is provided for within the current budget; under the ‘Signs and Lines’ allocation.

Anwar Subel (TfNSW) informed the Committee that the proposed linemarking was non-standard and that TfNSW recommended the use of C3 linemarking and No Stopping signs. Cr Neilson suggested that the Council proposed linemarking seemed to be quite effective.

Recommendation

That this matter be deferred, at this time.

TC89/22 Traffic Committee Report - McKeon Street, Maroubra - Event, Temporary Road Closure (M) (F2009/00454)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.89	F2022/00427	Event	Temporary Road Closure	RM	Yes

Council will be embracing an event known as “Beach Breaks” which will be held on Sunday, 24th July 2022, requiring the closure of McKeon Street, Maroubra, between Fenton Avenue and Marine Parade from 8am to 6pm. Clearway will enforce on both sides of the road from 6am to 6pm with the authority to tow away any illegally parked vehicle(s), as illustrated in the diagram below.

Traffic Controllers will be available to assist residents accessing McKeon Street from Fenton Street and to manage pedestrian at the pedestrian crossing. The temporary road closure is to encourage businesses to trade out on McKeon Street. Council will be providing furniture and live music extending other entertainment to Maroubra Beach (across Marine Parade).

Resourcing Strategy implications

There are no financial implications arising from this report.

Anwar Subel (TfNSW) informed the Committee that the proposed Clearway signage could not be supported by TfNSW. Mr Lehmann stated that the Clearway signage should be changed to No Stopping signage.

Recommendation

That:

1. McKeon Street, Maroubra, between Fenton Avenue and Marine Parade on Sunday, 24th of July 2022 is closed to vehicular traffic from 8am to 6pm;
2. McKeon Street, Maroubra, between Fenton Avenue and Marine Parade on Sunday, 24th of July 2022 is made a No Stopping zone from 6am to 6pm; and
3. Any directions made by the Police or Council Rangers during the event are implemented by the organisers without delay.

TC90/22 Traffic Committee Report - Minor Signage Items - Parking and Regulatory - June 2022 (C, H & M) (F2014/00528)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.90	F2014/00528	Signage Parking	No Parking	JS	Yes

The following Minor Signage matters are listed for the Committee's consideration.

Item No	Location	Issue Request	Recommend Approval?	Comments
TC90/22.1	Clovelly Road, RANDWICK (C), (D04568914-DK)	Install a 11m "½P 8am-6pm Mon-Sun" zone at the frontage of nos 26 and 24A Clovelly Road, commencing at the existing zone with "Bicycle Parking 8am-6pm" approximately 10m west of Earl Street and terminating 11m westerly, at the western boundary of No.22 Clovelly Road, Randwick.	Yes	To increase parking turnover for the local businesses. (Matter deferred. See recommendation below)
TC90/22.2	Burton Street, RANDWICK (C), (D04564150-AY) (AD)	Remove Mobility Impaired Person's Parking Space (MIPPS) at the frontage of 28 Burton Street, Randwick.	Yes	MIPPS is no longer required.
TC90/22.3	St Pauls Street, RANDWICK (C), (D04523841-AY) (AD)	Install 5.5m Mobility Impaired Person's Parking Space (MIPPS), directly in front of 69A St Pauls Street, Randwick, once eligibility is established.	Yes	To assist eligible mobility impaired residents park close to their property
TC90/22.4	The Avenue, RANDWICK (C), (D04558632-AY) (AD)	Extend the existing 30m Kiss & Go "No Parking 8am - 9:00am 2:30pm-4pm School Days" zone on the eastern side of The Avenue, Randwick, at Randwick Public School, by 27m southerly; terminating immediately north of the pedestrian crossing.	Yes	School requires the extension of the existing school pick up and drop off zone
TC90/22.5	Botany Lane, KINGSFORD (H), (D04544516-AY) (AD)	Relocate existing "No Stopping" sign on the west side of Botany Lane, opposite 52 Botany Street, Kingsford, 2m North of the current location.	Yes	To allow resident of 52 Botany Street to enter and exit their garage.
TC90/22.6	Bass Street, KINGSFORD (M), (D04517160-AY) (AD)	Install 5.5m Mobility Impaired Person's Parking Space (MIPPS), directly in front of 22 Bass Street, Kingsford, once eligibility is established.	Yes	To assist eligible mobility impaired residents park close to their property.
TC90/22.7	Boyce Road, MAROUBRA (M), (D04566570-AY) (AD)	Install 5.5m Mobility Impaired Person's Parking Space (MIPPS), directly in front of 222 Boyce Road, Maroubra, once eligibility is established	Yes	To assist eligible mobility impaired residents park close to their property.

TC90/22.8	Dampier Street / Forrest Street / Macquarie Street CHIFLEY (M), (D04566661-AY) (AD)	Install statutory 10m No Stopping C3 yellow line markings on all four corners of the intersection of Dampier Street / Forrest Street / Macquarie Street, Chifley.	Yes	To prevent illegal parking and improve safe sight distance.
TC90/22.9	Marine Parade, MAROUBRA (M) (D04566096-RM) (AD)	Remove the 5m No Stopping zone on the southern side of Marine Parade, opposite to no.68 Marine Parade, Maroubra.	Yes	To improve street aesthetics by reducing signage clutter in a short distance.
TC90/22.10	Sackville Street, MAROUBRA (M) (D04359045-RM) (AD)	Mark a silhouette of a motorcycle image in the 2.7m space between the driveways of no.64 and no.66 Sackville Street, Maroubra.	Yes	To assist in preventing cars parking in small spaces obstructing driveway access for the residents. (It is noted that this proposal is unenforceable)
TC90/22.11	Sackville Street, MAROUBRA (M) (D04359045-RM) (AD)	Remove a 2.7m P Motor Bikes Only zone directly in front of 66 Sackville Street, and between both driveways of 64 Sackville Street, Maroubra.	Yes	To improve street aesthetics by reducing signage clutter in a short distance.
TC90/22.12	Silver Street carpark RANDWICK (C) (D04594190-TL) (AD)	Expand the existing 'No Parking, Electric Vehicles Excepted Only While Charging' zone by 2.5 metres easterly (one parking space) at the Silver Street carpark, Randwick.	Yes	Existing single space (on the north side of Silver St carpark) is being well-utilised.
TC90/22.13	Des Renford Leisure Centre carpark (off Robey Street) MAROUBRA (M) (D04594190-TL) (AD)	Expand the existing 'No Parking, Electric Vehicles Excepted Only While Charging' zone by 2.5 metres westerly (one parking space) at the Des Renford Leisure Centre carpark (off Robey Street), Maroubra.	Yes	Existing single space (on the south side of the carpark) is being well-utilised.

Resourcing Strategy implications

Funding is provided for within the current budget; under the 'Signs and Lines' allocation.

Recommendation

That the recommendations listed in the Minor Signage items table, are approved for implementation / action, apart from Item TC90/22.1 – Clovelly Road, Randwick, where it was agreed that no action be taken until such time as a review of all the parking restrictions in this small commercial centre is completed; including appropriate community / business consultation.

TC91/22 Traffic Committee Report - Works Zone - Installation and Removal of Signage - June 2022 (C, H & M) (F2005/00521)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.91	F2005/00521	Signage	Works Zone	LB	Yes

Construction sites often involve the use of trucks, cranes and other large vehicles. Without special parking provision, the positioning of such vehicles, close to these sites, can cause significant problems for local residents or businesses. It is for this reason that the Council requires the creation of Works Zones at construction sites. Once the project is completed the Works Zone is removed (see Works Zone Conditions of Use detailed elsewhere within this document).

Accordingly, it is recommended that Works Zones be installed, or removed, at the locations detailed within the following table:

Works Zones Table

Item No.	Street/ Suburb	Side	Length (m)	Adjacent to (address)	Existing Parking Controls	Reference / Comments
INSTALLATION						
1.	Dolphin Street, RANDWICK (C)	N	12	230A Carrington Avenue	Unrestricted	LA/238/2022 DA/23/2019 D04516870-DK (AD)
2.	Glebe Street, RANDWICK (C)	W	15	30-32 Glebe Street	Unrestricted	LA/420/2022 D04581884-DA(AD)
3.	Mulwarree Avenue, RANDWICK (C)	E	18	17 Mulwarree Avenue	Unrestricted	LA/332/2022 D04565620-RM (AD)
4.	Todman Avenue, KENSINGTON (H)	S	12	157 Todman Avenue	Unrestricted	LA/376/2022 D04563020-DA(AD)
5.	Bunnerong Road* KINGSFORD (M) * State Road	E	27	391-397A Anzac Parade* and 17 Bunnerong Road*	Unrestricted	DA/311/2020 D04518671-DK (AD)
6.	Yorktown Parade, MAROUBRA (M)	N	12	4 Yorktown Parade	Unrestricted	DA/360/2021 D04516376-DK (AD)

(Reference [NSW Road Rule 181](#))

Resourcing Strategy implications

Funding is provided for within the current budget; under the 'Signs and Lines' allocation.

Recommendation

That the Works Zones listed in the Works Zones Table, are installed or removed, as detailed; with the Schedule of Conditions applying to any new Works Zones approved for installation.

Schedule Of Conditions - Installation of Works Zones

The following standard conditions may be referenced within these papers.

That:

- The applicant be informed that if they intend to use traffic controllers for activities associated with the Works Zone, such activities must comply with a formal Traffic Control Plan (to be held on site following preparation by person/s with the appropriate Transport for NSW (TfNSW) authorisation) and that any traffic controllers utilised must have current appropriate accreditation from TfNSW;
- The Council is given authority to replace the Works Zone with a No Stopping zone if the operator (or their sub-contractors):

- i. compromise pedestrian safety, or
 - ii. add significantly to traffic congestion in this area, or
 - iii. allow access/egress to/from the site which creates safety concerns or traffic flow delays, or
 - iv. does not ensure that the Council fees payable for this private use of the public road are met,
- with the zone being reinstalled once the issue of concern is properly addressed;
- c. The Council Rangers enforce the restriction; and
 - d. Authority be given to the Council to remove the Works Zone and reinstate the previous restrictions, when the applicant advises that it is no longer required.

TC92/22 Traffic Committee Report - Parking Control Signage at Intersections - No Stopping - June 2022 (C & M) (F2008/00166)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.92	F2008/00166	Signage, Parking	No Stopping	AY	Yes

The Council regularly receives requests for action to be taken with regard to vehicles being parked illegally at intersections. Such vehicles block sightlines to and from vulnerable road users such as pedestrians or bike riders. They can also obscure motorists' views of approaching vehicles, and, they can create difficulties for fire engines, garbage trucks or other large service vehicles which need to access the neighbourhood.

To ensure compliance with the legally mandated parking prohibitions at intersections, it is recommended that No Stopping signage be installed as per the following table:

Item No.	Street	Suburb	Side	Dist.	Direction	Of	References / Comments
1.	Mount Lane	Coogee (C)	West	10m	South	Powell Lane	D04547782-AY (AD)
2.	Power Lane	Randwick (C)	North and south	10m	East	Castle Lane	Install C3 yellow line marking D04575713-DA (AD)
3.	Raleigh Street	Coogee (C)	West	Extend 5m	North	Alison Road	D04570365-AY (AD) Due to the construction of a driveway at 2 Raleigh street, Coogee
4.	French Street	Maroubra (M)	West	10m	South	Maroubra Road	D04493738-AY (AD)
5.	French Street	Maroubra (M)	East	10m	South	Maroubra Road	D04493738-AY (AD)

(Reference [NSW Road Rule 170](#))

Resourcing Strategy implications

Funding is provided for within the current budget; under the 'Signs and Lines' allocation.

Recommendation

That the No Stopping signage proposals, listed in the Parking Control Signage at Intersections table, are approved for installation.

TC93/22 Traffic Committee Report - Transport for NSW (TfNSW) Funded Project Status - June 2022 (C, H & M) (F2021/00209)

Index code	Trim Ref:	Category	Sub Category	By	AD
2022.06.93	F2021/00209	Road Safety	Road Safety	TL	Yes

The State Government provides regular funding under a number of programs for road safety, pedestrian and bike riding improvements. These funds are made available through Transport for NSW (TfNSW). Additionally, Federal Government funding has also been made available for pedestrian safety projects. Randwick Council was successful in securing funding for seventeen projects for the 2021/2022 financial year. The total funds secured by Randwick Council for this financial year exceed \$2,990,000. All projects are 100% externally funded.

The following table shows the status of projects approved for the current, 2021/2022, year.

RMS Project Number	PROJECT NAME	Program Approved	Approved 2021/22 Funding Allocation	Monthly Status
P.0070089	Oberon Street and Arden Street, Coogee Improve deflection angle of existing roundabout	NSW Safer Roads	\$94,619	Design has been finalised and implementation will occur through June 2022.
P.0069754.06	Moverly Road, Maroubra - Raise existing pedestrian crossing, create wombat crossing	Federal Stimulus Road Safety Program School Zones (FSRSPSZ)	\$150,000	This device has now been installed and is functioning well.
P.0069760.01	Anzac Pde at Franklin Street (southern intersections), Matraville - Signalise multi-carriageway intersection	FSRSPSZ	\$1,300,000	TfNSW has given Approval in Principle of the early design stage. Further design development continues.
P.0069754.07	Perouse Road (at Aeolia Street), Randwick - Raise existing pedestrian crossing, create wombat crossing	FSRSPSZ	\$150,000	This device has now been installed. Some very minor works still to be done.
P.0069754.08	Botany Street (at Waratah Avenue), Randwick - Upgrade existing pedestrian refuge	FSRSPSZ	\$60,000	This device has been installed and is functioning well.
P.0069754.09	Rainbow Street (at Ellen Street and Hendy Avenue), Coogee - Install one pedestrian refuge and a separate footpath extension.	FSRSPSZ	\$160,000	<u>Rainbow/Ellen:</u> The agreed design option has been released for implementation. This device will be installed in June 2022. <u>Rainbow/Hendy</u> This device has been installed and is functioning well.

P.0069754.10	King Street, Randwick- Install pedestrian refuge near Montefiore Randwick	FSRSPSZ	\$100,000	This device has now been installed and is functioning well.
P.0069754.11	Clovelly Road (near Dans Avenue / Knox Street), Clovelly - Install pedestrian refuge and kerb nibs	FSRSPSZ	\$100,000	This device has now been installed and is functioning well.
P.0069754.12	Barker Street, west of Easy Street, convert roundabout splitter island to fully dimensioned pedestrian refuge.	FSRSPSZ	\$100,000	This device has now been installed and is functioning well.
P.0069754.13	Varna Street (at Arden Street), Clovelly - Install pedestrian refuge	FSRSPSZ	\$100,000	This device has been installed and is functioning well.
P.0069754.14	Oberon Street & Higgs Street, Coogee - Install kerb nibs	FSRSPSZ	\$100,000	This device has been installed and is functioning well.
P.0069754.15	Bream Street (at Mount Street), Coogee – Raised pedestrian crossing.	FSRSPSZ	\$100,000	The agreed design option has been released for implementation. This device will be installed in June 2022.
P.0069754.16	Arden Street, just south of Bream Street - Install pedestrian refuge.	FSRSPSZ	\$80,000	This device has now been installed and is functioning well.
P.0069754.17	Chepstow Street (at Stanley Street), Coogee - Install pedestrian refuge	FSRSPSZ	\$100,000	This device has been installed and is functioning well.
P.0069754.18	Carter Street (at Avoca Street), Randwick – Install continuous footpath treatment	FSRSPSZ	\$100,000	This device has been installed and is functioning well.
P.0069754.19	Clovelly Road (at Centennial Avenue), Randwick - Install pedestrian refuge	FSRSPSZ	\$100,000	This device has been installed and is functioning well.
P.0069754.20	Church Street (at Frances Street), Randwick - Install pedestrian refuge	FSRSPSZ	\$100,000	This device has been installed and is functioning well.

This table will be updated each month and will be reported upon, at each Traffic Committee meeting.

Resourcing Strategy implications

All funding for these projects has been made available through Transport for NSW or from the Federal Government.

Recommendation

That the information be received.

General Business

Urgent Matters OR Matters for Future Investigation

TC94/22 Doncaster Avenue, Kensington (H)

<i>Index code</i>	<i>Trim Ref:</i>	<i>Category</i>	<i>Sub Category</i>	<i>By</i>	<i>AD</i>
2022.06.94	PROJ/10180/1527782/8	Signage, Parking	Resident Parking	TL	Yes

Councillor Olive informed the Committee that Councillor Veitch and the Manager, Integrated Transport, Tony Lehmann, had discussed the disruption to the regular parking practices in Doncaster Avenue, near Carlton Street, Kensington. Mr Lehmann thanked Councillor Olive for raising this matter and sought delegated authority for him to make minor changes to parking controls along the Kingsford to Centennial Park Walking and Cycling Improvement Project (K2CP), during constructions works. He noted that he would report back to the Committee with any changes made.

Recommendation

That the Manager, Integrated Transport, be delegated authority to make minor changes to parking controls along the Kingsford to Centennial Park Walking and Cycling Improvement Project (K2CP), during constructions works - with a report back to the Committee with any changes made.

TC95/22 Commercial Centres Parking Reviews (C, H or M)

Councillor Bill Burst asked Mr Lehmann if there was an opportunity to introduce Pick Up and Drop Off zones to meet the needs of ridesharing point-to-point transport (Uber, etc). Mr Lehmann noted that Waverley Council had introduced such zones and he agreed to examine such facilities as part of commercial centres parking review planned for the future.

Recommendation

That the information be received.

The meeting closed at 10.41am.
